Trust Your Supplier
Transforming the Buyer Experience

TYS provides buyers with a **single point of transparency, visibility, and risk assessment during supplier onboarding,** along with competitive advantage, operational efficiency, and cost savings.

Cycle Time Reduced

- Supplier discovery
- Standardized questionnaires (industry, legal, localization, etc.)
- Intuitive workflow
- Diverse supplier validation
- API integration
- Document hub

Risk Mitigation

- Integrated compliance validators
- SMART attributes
- Continuous monitoring
- Strategic and Operational reporting
- Banking profile

Centralized

Global

- Localized in 75+ countries
- Translation in 6 languages
- Global legal entity identifier foundation (GLEIF)
- Consultancy

Centralized Planning & Oversight

The TYS integrated platform infuses business partner data and provides tools that allow **market analysis** prior to onboarding tasks and **continuous monitoring** of your suppliers.

Ecosystem Platform

- Business partner relationships provide comprehensive coverage of different risk areas
- Bring Your Own License for existing data relationships, removing the "swivel seat" between platforms
- SWIFT & IBAN 3rd party verification
- Single sign-on capability
- Integration with ERP systems
- Blockchain platform

Risk & Compliance

- Preview supplier risk mitigation ratings
- Configurable settings for risk thresholds, compliance alerts and monitoring
- Document repository with 2-way workflow alert messaging
- Power BI to perform advanced analytics for managing onboarding and lifecycle processes.

Future Capabilities

- Diverse supplier discovery
- Search filter by validator
- Pre-vetting suppliers
