

GENTEX CORPORATION

Randy Pappal
VP of Purchasing/Supply Chain
Gentex Corporation

Dear Valued Supplier,

As the Vice President of Purchasing / Supply Chain at Gentex Corporation, it gives me great pleasure to share some exciting news with you.

Gentex has recently partnered with Trust Your Supplier (TYS), an innovative platform designed to improve supplier on-boarding, third party risk management, and supplier management. At Gentex, we believe in fostering strong, collaborative relationships with our suppliers, and our collaboration with TYS is set to bring significant benefits to Gentex and our suppliers.

One key advantage is the simplification of third-party risks and supplier management. TYS offers a centralized platform that will allow us to efficiently manage our global supplier network. This means smoother communication, streamlined processes, and enhanced collaboration between us and our partners like you.

Transparency is another critical aspect of our partnership with TYS. With their innovative platform, we gain greater visibility into our supply chain. This enhanced transparency enables us to make more informed decisions and address any potential risks proactively.

Your active involvement in our partnership with TYS is required and instrumental to the success of our relationship going forward. As you learn more about this platform you will also see a benefit to your organization beyond the enhanced collaboration between us and you.

Thank you

Randy Pappal
Vice President of Purchasing / Supply Chain
